Subject: North Filton Proposal
Attachments: 3089_BasicServicesAgreement-1.pdf

[REDACTED]

It was good to speak with you last Thursday with regard to your requirements for our support with developing the North Filton proposal.

I have today met with our Capability and Capacity Planning team who undertake our timetable modelling and have asked them to prepare the scope and costs for a remit to take forward the work you have already undertaken. Whilst this is being developed I have attached a template commercial agreement that we will need to agree in order for us to undertake the work. Please would you review the agreement and let me have any comments or queries with regard to its content, noting that the schedules will be drafted once a remit is prepared for us to review and agree. I have included below the link to our public website where you will find further useful information on this and other commercial agreements.

<https://www.networkrail.co.uk/industry-commercial-partners/third-party-investors/template-agreements/>

I have asked our Team Administrator to contact you early next week, when she returns from leave, to find some dates to meet with you to review the commercial agreement attached and a draft remit.

I trust this satisfactorily addresses your immediate requirements and that we can meet in the next few weeks in order to progress this work further.

Please do let me know if I can assist with anything further in the meantime.

Regards
